

# Canon ANELVA Component Products

## X-Ray Source

### Sealed Transmissive Microfocus X-Ray Source

Standard Holder Type

Long Holder Type

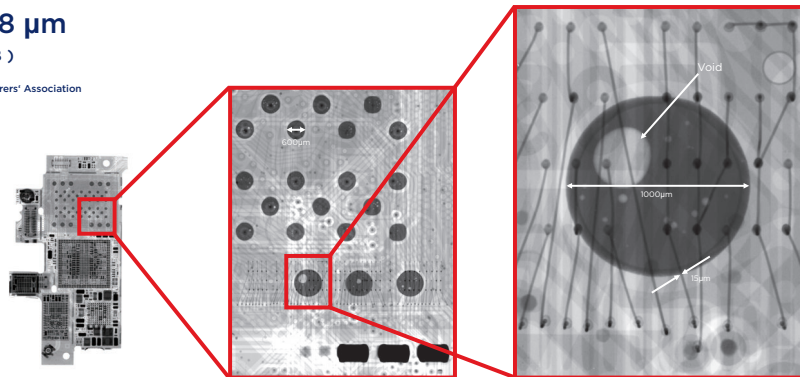

✓High Speed Photography with High Resolution

### Resolution 2 - 8 $\mu\text{m}$

(JIMA <sup>※1</sup> RT RC-02B )

<sup>※1</sup>: Japan Inspection Instruments Manufacturers' Association

PCB for Music Player

100kV / 100 $\mu\text{A}$  320msec

## Vacuum Components

### Vacuum Gauge

- Full Range Line-up
- Transducer / Active Gauge
- Robust Ion Gauge
- Cold Cathode Gauge

### Helium Leak Detector

- Easy Operation
- Simple Maintenance
- Excellent Stability and Sensitivity

### Quadrupole Mass Spectrometer

- High sensitivity
- Low gas emission analyzer tube
- Easy to use Japanese/English control software
- Standard equipped with a variety of I/O functions
