(3) Future plans

• Shipped product

Products manufactured after March 2025 will be equipped with a "control board integrated turbo molecular pump" in sequence.

• Repairs for already shipped products

If the turbo molecular pump control board breaks down, it will be replaced with a "turbo molecular pump with integrated control board." In addition, the internal wiring and software will also be changed in conjunction with this replacement.

*It is possible to replace only the turbo molecular pump.
